WINTER IS COMING

OPENING WORDS FROM OUR GENERAL MANAGER

Hello and welcome to the April-May 2024 edition of the PACCAR Parts catalogue. As colder days approach, the offerings included in this catalogue, themed “Winter is Coming,” will help equip Australian truck drivers for the challenges ahead. The following pages feature an array of parts and promotions designed to ensure your safety and efficiency during the months ahead.

In this edition, we’ve spotlighted products like TRP CLEANBLUE, Australian-manufactured, ready-to-use AdBlue product for maintaining emissions compliance and engine performance even in harsh winter conditions. Additionally, our TRP Steering Gear and Column Core Return Incentive Program is tailored to enhance your vehicle’s steering reliability while offering incentives for responsible disposal of old components.

One of the highlights of this catalogue is the exclusive feature showcasing DAF genuine parts. Under the motto “Nothing Beats Original,” we emphasise the quality and reliability of authentic

DAF parts, indispensable for maintaining peak performance and durability throughout the winter season.

Furthermore, we’re thrilled to announce the release of Volume 3 of our Trailer Parts Catalogue, a comprehensive resource to meet all your trailer maintenance and repair needs. From brakes to lighting, our extensive selection ensures that your trailers are ready to tackle whatever challenges winter may bring.

As winter approaches, Australian truck drivers can trust PACCAR Parts and the Kenworth-DAF dealer network to provide the tools and expertise needed to navigate the roads safely and efficiently. With our latest catalogue, you can prepare your fleet for the cold season ahead, confident in the quality and value of our products and promotions

April 2024

WHICH DPF IS BETTER FOR YOUR TRUCK AND THE ENVIRONMENT?

DAF trucks meet European emissions standards at the time of delivery. One of the components that makes this possible is the DAF Diesel Particulate Filter (DPF) in the silencer. The DPF keeps particulate emissions within legal standards. A properly functioning DPF is essential for your truck to perform at its best.

SMART INTERACTION

In DAF trucks, the engine and the Emission Aftertreatment System (EAS) work together in an ingenious way to filter soot particles out of the exhaust gas. The DAF DPF is automatically regenerated at least once every 150 hours. This involves the engine management system elevating the DPF temperature to 510°C, resulting in the trapped soot particles being burnt off. The capacity of the DPF will decrease over time, and you'll need to have it replaced. The reason for this is that ash, the by-product of combustion, accumulates in the filter.

Regeneration then must be performed more frequently, leading to increased fuel consumption and the EAS ageing more quickly, which you naturally want to avoid. Preventive maintenance of the DPF helps to keep your DAF truck in perfect condition and ensures that it consumes less fuel. Depending on your vehicle type and its use, the replacement period of your DPF is between 180,000 and 540,000 kilometres.

UNIQUE SERVICE. MAINTAINING QUALITY.

During the DAF DPF Service, our service technician replaces the clogged DPF. Getting every little bit of ash out of the filter channels is not simply a matter of blowing air through the filter, and this is why DAF Trucks has devised a unique cleaning procedure. Every channel in the DPF is sprayed under high pressure with special fluids to ensure optimal cleaning. The result is literally as good as new. The cleaned DPF is guaranteed to have the same quality as the original DPF and require servicing at the same intervals. Ignoring the service intervals leads to unnecessarily high fuel consumption and an increased risk of higher costs.

According to research conducted in several European countries, 'cleaned' Diesel Particulate Filters from other suppliers were still as much as 93% contaminated. In contrast, the DAF DPF Service results in a DPF that is as clean as a new DPF and has the same service interval. Don't take the risk. Use original DPFs from DAF. Nothing Beats Original.

TRP® STEERING GEAR AND COLUMN CORES

REWARD CORE CREDIT*

PLUS

**FINDERS FEE
A \$50 PREZZEE GIFT CARD
FOR EVERY CORE RETURNED^**

*Credit is only available on eligible steering gear or column cores that are within valid core return dates and have not previously been credited or returned. Please contact your nearest PACCAR Parts or TRP Dealer for core credit terms & conditions, and to see which cores are eligible for credit.

^Period of offer 01/04/2024 to 31/05/2024. Offer only applies to eligible Steering Columns and Steering Gears fitted to Kenworth Trucks. Customers are required to contact their PACCAR Parts or TRP Dealer to confirm which steering gear or column cores have not been credited or returned. To be eligible to receive your \$50 Prezzee Gift Card, please provide your name and email address upon return of core to your TRP Dealer representative. Gift Card will be issued after core return is processed. Gift Card will be emailed to the nominated email address. Email addresses will only be used to issue the Gift Card and not for promotional purposes. Gift Card cannot be transferred or exchanged nor redeemed for cash.

CLEANBLUE®

PREMIUM QUALITY ADBLUE® FROM TRP®

PACCAR Parts is proud to announce the launch of TRP® CLEANBLUE®.

Manufactured in Australia from high purity urea, CLEANBLUE® is a fully formulated, non-polluting, ready to use Adblue product. When used in Selective Catalytic Reduction (SCR) systems, CLEANBLUE® effectively reduces nitrous oxide emissions from diesel exhaust systems.

Theresa Weymouth, PACCAR Parts product manager, said “we have worked with our Australian chemical manufacturer partner to develop CLEANBLUE® and are looking forward to supplying the market with our premium Adblue product.”

CLEANBLUE® is a VDA (Verband der Automobilindustrie - German Association of the Automotive Industry) approved Adblue product, with PACCAR Parts’ supply partner holding a licence to produce Adblue products. CLEANBLUE® meets ISO 22241-1,2,3 standards and comes with a twelve-month warranty for purity and quality assurance. It is available in 10 litre, 20 litre, 205 litre and 1,000 litre container sizes. CLEANBLUE® is just one of many great TRP products.

To find out more about the range visit:
