COMPACT PARKING AIR CONDITIONER

1963746

24V ROOF MOUNTED AIR CONDITIONER

APPLICATION

- Suits most European models

FEATURES & BENEFITS

- 1400W twin compressors, two circuits
- Airflow 840M3/hr
- Preloaded with refrigerant gas R134A
- Double battery protection system
- Serviceable and repairable unit
- 24V roof mounted stand-alone unit

FUEL & OIL TANKS

The TRP® fuel and oil tank range is comprehensive and provides for most trucks operating in the Australian market.

The Range also includes standard tank accessories such as mounting brackets, straps, rubber, caps, necks and alloy steps.

Made in Australia by an OE manufacturer, the product is built to last and comes with a 12 month hassle free warranty.

TANK CODE OUTLINE

TRP(A)(B)(C)(D)(E)

Where;

A = Fuel (F), Oil (O), Fuel/Oil (FO)

B = Tank Size (mm)

C = Left Hand (L), Right Hand (R), Centre (C) Underbelly (UB)

D = Tank Capacity (Litres)

E = Alloy (A), Polished Alloy (AP), Steel (S)

PART NUMBER EXAMPLES

FUEL

1. TRPF457L220A = Fuel Tank, 457mm Round, Left Hand, 220Lt, Alloy
2. TRPF622R200S = Fuel Tank, 622mm Round, Right Hand, 200Lt, Steel
3. TRPF650L670AP = Fuel Tank, 650x480mm Rectangle, Left Hand, 670Lt, Polished Alloy

OIL

1. TRP0457C150A = Oil Tank, 457mm Round, Centrally Located Filler, 150Lt, Alloy
2. TRP0559C117S = Oil Tank, 559mm Round, Centrally Located Filler, 117Lt, Steel
3. TRPF700C260AP = Oil Tank, 700mm Square, Centrally Located Filler, 260Lt, Polished Alloy

FUEL/OIL

1. TRPF0622L150A = Fuel/Oil Tank, 622mm Round, Left Hand, 210 Fuel/150 Oil, Alloy
2. TRPF0660R200AP = Fuel/Oil tank, 660mm Round, Right Hand, 270 Fuel/200 Oil, Polished Alloy
3. TRPF0550L120A = Fuel/Oil Tank, 550mm Square, 300/120Lt, Left Hand, Alloy

Note: The Fuel/Oil tank's oil capacity is reflected in the part number. Refer to the section on Fuel/Oil tanks for the respective Fuel capacity.

For enquiries, contact kwaussalesupport@paccar.com

Fuel Tanks are ONLY supplied with a Filler Cap, with blanked Sender, and plugged Pick-up and Return Pipe fittings.

If Pick-Up and Return pipes are required - Refer to individual Fuel Tank Table Header for Pick-Up Kit Part Number.

If Pick-Up and Return Pipes not required - Order TRP9TP2 in order to Plug the outlets.

Aluminium tanks are non-corrosive and lightweight. The standard finish is Linish and comes with PVC protective film.

Steel tanks are supplied Black Gloss powder coated.

COMMON FUEL NECK SIZES BY BRAND

54MM	IVECO, UD & VARIOUS BUSES
76MM	MACK, VOLVO, ISUZU, IVECO
80MM	VOLVO, ISUZU, MERCEDES
89MM	KENWORTH (NECK NOT AVAILABLE)
100MM	MACK (NECK NOT AVAILABLE)

Anti-Syphon Tank Insert

Simply push insert into the body of the tank neck. Insert will 'click' into position once barb enters the open tank space. Barb ensures retraction of the insert is not possible, and therefore a hose or other syphon device can't be placed into the tank for subsequent fuel removal.

Tank Neck Thread Restorer

- Remove existing cap from existing Neck, inc chain.
- Clean existing neck thread thoroughly with lint free cloth to remove any diesel residue.
- Test Restorer onto neck thread to ensure ease of fitment. Clean Neck thread if necessary.
- Clean Neck Thread again with Acetone based cleaner and Lint free cloth.
- Bead Loctite 480 or equivalent around Restorer's Female thread.
- Within 30 Seconds of Loctite 480 application, screw Restorer onto Tank Neck until tight.
- Remove any excess Loctite 480 off with a clean rag.
- Feed chain back through neck and tighten Cap back onto Male thread of Restorer.

WIPER SYSTEMS

The TRP® windscreen wiper range has been designed and developed in Australia to satisfy a broad range of truck and light commercial vehicle applications for the aftermarket. TRP® wiper blades and refills are easy to install and are a cost effective, OE quality, aftermarket wiper solution.

**FEATURES**

- Premium quality rubber and metalware used
- Features include 'ez-lock' multiple connector system
- Powder coated finish
- OE quality, premium wiper solution
- Available in blister and bulk packs
- 12 month hassle free warranty

The TRP® Wiper Range extends from 330mm–710mm long with track widths of 6mm–15mm, are manufactured with 100% Natural Rubber and chemically hardened to provide increased service life.

The TRP® Wiper range also features the 'EZ-Lock' Multiple Connector System. These universal adaptors allow for blades to be fitted to most arm applications. Installation is easy, irrespective of bayonet, hook, or side mount blade fixation. Fitting instructions are conveniently located inside blister packs.

BLADES are aerodynamically designed for quieter operation, but also to minimise wind lift at higher speeds and, achieve constant pressure along the blade throughout its sweep. Blades are supplied individually, including metalware and rubber.

REFILLS are supplied as a Blister pack or a Bulk Pack. The Blister pack has ONE pair of refills (for Driver and Passenger side) The Bulk comes in a pack of 10 or 20 refills. Both Twin rail and Poly backed Refills are available.

EASY PRODUCT SELECTION

To identify your required TRP® replacement Wiper Blade or Refill, simply refer to the following pages. Alternatively, measure your existing wiper blade/refill length, and the refill width.

From there determine your required product by building up the part number using the following TRP® Wiper range part number breakdown.

WW	610	R	P	6	H	-20
TRP® WIPER DESIGNATION	BLADE/REFILL LENGTH (MM)	R - WIPER REFILL B - WIPER BLADE	POLY BACKED REFILL (OPTIONAL WITH 610MM & 710MM BULK REFILLS)	RUBBER WIDTH 6 = 6MM 75 = 7.5MM 8 = 8MM 125 = 12.5MM 15 = 15MM	BAYONET OR HOOK MOUNT (WHERE APPLICABLE)	BULK PACK SIZE (WHERE APPLICABLE)

SOME EXAMPLES ARE:

- **WW380B6** is a 380mm Wiper Blade with a 6mm Twin Metal Rail Rubber.
- **WW460R15** is a 460mm x 15mm Twin Metal Rail Refill. (Twin Pack)
- **WW710RP8-10** is a bulk pack of 10, 710mm x 8mm Poly-backed Refills.

FOR ADDITIONAL REFERENCE, REFILL PROFILES ARE SHOWN BELOW (NOT TO SCALE)**OTHER NOTES:**

- Abbreviations D/C/P/R in the application guide, refers to wiper blade location
- D = Driver, C = Centre, P = Passenger, R = Rear
- On many occasions 1 model truck can be manufactured in different countries, therefore the wiper refills and/or wiper blades may be different than listed.
- New model Iveco Strallis, Eurocargo, Powerstar & some Iveco Daily vans made with captive end blades, where the only TRP Refill option is WW710RP. Remove the retaining clip and trim refill at clip end to required length.
- Mercedes Benz Vito/Sprinter & Viano are made in 3 different countries.
- Care has been taken to ensure information with this Application Guide is as accurate as possible in terms of replacement of OE Blades. These OE Blades may have already been replaced and therefore required refills may differ from that listed in this guide.
