STEERING PARTS & HARDWARE

Spring back into action with quality steering and suspension parts that will keep your truck on the straight and narrow.

Our steering and suspension components are chosen to suit Australia's varied conditions covering popular truck and trailer applications to keep your truck and trailer performing year round.

SUSPENSION & STEERING

AIR SPRINGS

TRP® air springs are 100% leak tested before leaving the factory and are designed and engineered specifically for the aftermarket.

Manufactured by one of the largest OEM air spring suppliers, TRP® air springs provide exceptional value whilst never compromising on quality or safety.

AIR SPRINGS

15 PRODUCTS AVAILABLE

FEATURES & BENEFITS

- Chemically formulated vulcanised rubber to withstand ozone effects
- High quality materials used in manufacturing including unique fabric material for higher burst rating and extended life
- Meets OEM performance standards
- Lightweight and 100% leak tested
- 12 month hassle free warranty

SUSPENSION & STEERING

BUSHINGS

TRP® torque rod bush exhibits excellent torsional stiffness, offering maximum strength and durability at a competitive price.

TORQUE ROD BUSH

TRB68250

APPLICATIONS

- Airglide 200/400 Suspensions
- Kenworth Airglide Suspension 200/230/400/460
- Hendrickson HA Air Suspension
- Mack Rear ST34 Tapered Spring Suspension
- Neway SAF Holland ADZ123/126 Suspension

FEATURES & BENEFITS

- High quality, reliable and exhibit excellent torsional stiffness for maximum strength and durability
- Excellent value
- 12 month hassle free warranty

TRAILER U-BOLTS (GRADE 5)

U-BOLT PART NUMBER CODE – SAMPLE

T03-UBA-135

Square Bend Type

Round Bend Type

NOTE

1. Width of U-Bolts listed is inside width. Dimension A above.
2. Length of U-Bolts listed is inside length. Dimension B above.
3. All U-Bolts are grade 5 material which is only suitable for trailer applications
4. Most U-Bolts are supplied with nuts and washers.
5. All U-Bolt threads are UNF.
6. Refer to OEM documentation for correct tightening torque.
7. Always retorque U-Bolts at OEM recommended service intervals.

SUSPENSION & STEERING

SHOCK ABSORBERS

With large bore sizes and increased oil capacity, TRP® shock absorbers can operate cooler over long distances and at constant high speeds.

The range covers most popular applications in the truck and trailer market and are manufactured by an OEM supplier.

**FEATURES & BENEFITS**

- Manufactured by an OE manufacturer
- Increased oil capacity vastly improves heat dissipation
- Large bore sizes and dampening forces to suit higher loads and Australian conditions
- Viton & HNBR seals along with high temperature oil helps withstand higher operating temperatures for longer
- 12 month hassle free warranty
